

VISITORS TO IBTec in 2015

Delegation from Pakistan

On Friday 6th March a delegation from the Pakistan Education Commission and various universities in Pakistan visited AUT. Professor Ahmed Al-Jumaily gave a presentation overview about IBTec's activities and current research.

Delegation from National Tertiary Education Consortium (Ntec)

National Tertiary Education Consortium (Ntec) is a leading education provider for overseas students in the field of Nursing and Biomedical Technology. About 30 students, accompanied by a faculty representative, visited our facility to have an understanding about advanced biomedical technologies and research at IBTec. The visit was organised by Dr Pierson Rathinaraj from IBTec and Dr Anthony Raman from Ntec. Professor Ahmed Al-Jumaily showed them around the facilities and gave them a short presentation. Below is a photo of Ahmed with the students.

Two Visitors from England

On Tuesday 31 March, IBTec hosted Professor Jimmy Moore (specialising in Cardiovascular Therapy) from the Imperial College in London and Assoc Prof Bindi Brooks (Airway Smooth Muscle) from the University of Nottingham. The students gave short presentations on the research they are doing and Ahmed showed them around our facilities.

Assoc Prof Bindi Brooks and Professor Jimmy Moore

Professor Buddy Ratner Washington from University of Seattle Visits IBTec

Professor Washington is spending his sabbatical at Callaghan Innovation and visited IBTec recently. Ahmed discussed with him various areas of research and he was very impressed and is looking forward to future collaboration with us.

Visit from Wintec

In August, Matt Conlon –Vice President-Cantel Medical Corp Little Falls, New Jersey; Mason Schwartz- Operation Manager-REVOX Sterlization Solutions-Minneapolis, MN; Simon Feasey, Managing Director-Revolution Fibres NZ and Ian Hosie-Technical Director Revolution Fibres visited to discuss future collaboration with IBTec. The team were impressed with IBTec’s facilities and the level of research being conducted.

Mariana Vander Walt, Director of Centre for Transdisciplinary Research and Innovation at Waikato Institute of Technology and Gert Hatting, Research Team Manager visited IBTec with Pierson Rathinaraj (who used to work at IBTec but now works with Mariana and Gert). The visit was to sign a MoU between IBTec and Wintec for future research projects.
