IBTec CELEBRATES DIWALI

Anubha Kalra and Gautam Anand put on a Diwali celebration for the IBTec team. This was also a celebration of both Anubha and Gautam passing all their PhD requirements. Congratulations to them both and to their Primary Supervisor Associate Professor Andrew Lowe and their Second Supervisor Professor Ahmed Al-Jumaily. The meaning of Diwali is below.

Diwali is an Indian festival of lights. It celebrates the victory of good over evil, knowledge over ignorance and light over darkness. According to Hindu mythology, Lord Rama defeated the demon king Ravana who kidnapped his wife and returned back to his home. To celebrate his return, people lit up their houses with "diyas" (cup shaped oil lamps) and celebrated the occasion. In that remembrance, Diwali is celebrated every year in India (and worldwide amongst Indians) with great joy and composure with sweets, lights and crackers.

Anubha Andrew Lowe Gautam
