

AUT INSTITUTE OF BIOMEDICAL TECHNOLOGIES

MARCH & APRIL 2019

Mario Baum and Frank Roscher

from Fraunhofer institute in Germany were visited IBTec AUT and presented their work on Wednesday 20 March 2019 at WF411. They are from the ENAS (Electronic Nano Systems) section of Fraunhofer and are specialists in applying advanced materials (nano tech) to optimize and encapsulate sensors for industry.

Xiang Fu Graduated with a PhD

Xiang Fu

Xiang Fu has successfully defended his PhD thesis “Stretchable Strain Sensors Made of Multi-Wall Carbon Nanotube-Based Composite” during a recently held oral examination, with an excellent outcome (PhD awarded with minor amendments). Well done Xiang!

Many congratulations to Xiang’s supervisors: Dr Maximiano Ramos (primary) and Prof Ahmed Al-Jumaily (secondary). Thank you for your invaluable contributions.
